

# HFS<sup>®</sup> FAUCETS

by Tomlinson<sup>®</sup>

## FOR BOTTLED WATER COOLERS

**T**omlinson's HFS<sup>®</sup> faucets are the industry standard for bottled water coolers and liquid containers. In addition to water, other dispensing applications for the HFS faucets include juice, wine and cold and hot beverages up to 170°F (77°C). If you have a specific dispensing application in mind, give us a call. We would be happy to work with you. Many color options are available.

### HFSA 1000019

Industry standard for bottled water dispensing. Black polypropylene body with 3/4"-16 UNF threads. Complete with two washers and plastic jam nut.

| Flow Rates   | Pressure         | Max. Temp.  | Thread Size |
|--------------|------------------|-------------|-------------|
| 3.21 oz/sec  | 20 PSI, 1.33 BAR | 170°F, 77°C | 3/4"-16 UNF |
| 1.51 gal/min |                  |             | 11/16" long |
| 5.71 l/min   |                  |             |             |

HFSL (1000209) is similar to HFSA, but with 1" long thread.

### HFSG 1000145

Tan polypropylene body with 3/4"-16 UNF threads. Optional washer and jam nut available.

| Flow Rates   | Pressure         | Max. Temp.  | Thread Size |
|--------------|------------------|-------------|-------------|
| 3.21 oz/sec  | 20 PSI, 1.33 BAR | 170°F, 77°C | 3/4"-16 UNF |
| 1.51 gal/min |                  |             | 15/32" long |
| 5.71 l/min   |                  |             |             |

HFSGE (1000164) is similar to HFSG, but with 1" long thread.

HFSD (1000061) is similar to HFSG, but with O-ring groove and 1-1/4" long thread.

### HFSLT 1012223

White polypropylene body with 3/4"-16 UNF threads. This faucet is used on ceramic water dispensers and is shipped in an individual bag complete with one washer and one jam nut. Many color options available.

| Flow Rates   | Pressure         | Max. Temp.  | Thread Size |
|--------------|------------------|-------------|-------------|
| 2.52 oz/sec  | 20 PSI, 1.33 BAR | 170°F, 77°C | 3/4"-16 UNF |
| 1.18 gal/min |                  |             | 1" long     |
| 4.48 l/min   |                  |             |             |

### HFS-3F 1008779

White polypropylene body with internal 3/8"-18 NPS threads and .05" (1 mm) recess for washer in the back of the flange.

| Flow Rates   | Pressure         | Max. Temp.  | Thread Size |
|--------------|------------------|-------------|-------------|
| 3.11 oz/sec  | 20 PSI, 1.33 BAR | 170°F, 77°C | 3/8"-18 NPS |
| 1.46 gal/min |                  |             | 13/16" deep |
| 6.63 l/min   |                  |             |             |

HFSF (1000101) is similar to HFS-3F, but with straight spout configuration.

## Standard HFS® Upper Assembly

The standard upper assembly is interchangeable with any HFS® faucet and consists of the handle, bonnet, stem, spring and seat cup. Many color options are available. Blue and white are standard.

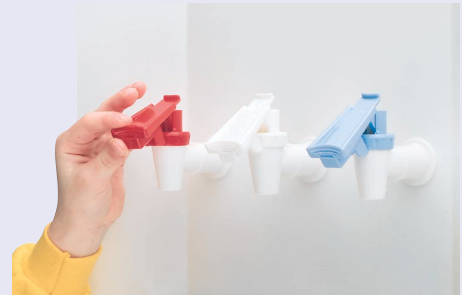

1008849      White upper assembly  
1415822      Blue upper assembly

## Touch Guard® Upper Assembly

Touch Guard® upper assembly prevents accidental dispensing. Available separately or can be assembled to any HFS® faucet at the factory.

1009313      Red upper assembly  
1009312      Blue upper assembly  
1009314      White upper assembly

## HFS® Cup Trip Handle

Cup Trip handle permits one hand dispensing. Handle is lock open or self-closing. Available separately or can be assembled to any HFS® faucet at the factory.

1913427      Red handle  
1913429      Blue handle  
1913428      White handle  
1912263      Black handle

## WCP1003 Water Cup Dispenser
